Mike Peck

RENU CONTRACTING & RESTORATION

Swallow restaurant was a vision my wife and I had a long time ago. We worked hard to make that vision a reality, and in 2010 Swallow opened. I built the 20 seat, 800 sq ft restaurant with my own two hands along with my father, and cousin. The pride we took in that humble eatery was immeasurable.

Fast forward four years. The new Swallow restaurant is about to open to friends and family. My wife, son and parents are here. My father says "Wow" gazing around at the spectacular transformation. His eyes well up and he gives me a warm hug. He is impressed to say the least. My wife is smiling and tells me how proud she is of me, my eyes well up. Friends pour in and the reaction is the same; "Wow".

Working with Mike and Rob was a great experience. Every request, no matter how difficult was met with the response of "we'll make it happen". They went out of their way to make this transition easy and relaxed. Every person that worked on this project was respectful and professional. The final result is jaw dropping and I am beyond satisfied with the quality and speed at which this job was completed. RENU gave me a restaurant that fills me with pride every time I step foot in it. My family thanks you, my customers thank you, my employees thank you and I, from the bottom of my heart thank you. Seeing how proud my loved ones are of me is something you have given me that money cannot buy.

Sincerely,

James Tchinnis
